

**Recipients of the S.T. Li Prize for Achievements in Science and Technology
(1998-2008)**

Name	Organization	Year	Research Area
Larry E. Overman	University of California, Irvine - Chemistry	1998	Natural product total synthesis
Jin Au Kong	MIT-Electrical Engineering & Computer Science	2000	Electromagnetics and remote sensing
Zong Lin Wang	Georgia Institute of Technology - Materials Science and Engineering	2001	Nanomaterials synthesis and characterization
Leo A. Paquette	Ohio State University-Chemistry	2003	Natural products and organic synthesis
Chien M. Wai	University of Idaho-Chemistry	2005	Supercritical fluid separations and processes
Scott D. Rychnovsky	University of California, Irvine -Chemistry	2007	Synthetic methodology and bioinorganic chemistry
